

Frequently Asked Questions-4

Q. As per Department of Consumer Affairs' Advisory dated 9th September, 2025 manufacturers, packers or importers of pre-packaged commodities were permitted to revise retail sale price on unsold stock, manufactured/packed or imported prior to rate revision by way of putting sticker /stamping or online printing after complying with certain conditions, such as, advertising in two newspapers.

Is re stickering /stamping or online printing on unsold stock, manufactured/packed or imported prior to rate revision and advertising in two newspapers mandatory?

The Department of Consumer Affairs has issued an Advisory dated 18th September, 2025 in supersession of earlier advisory dated 9th September 2025. The gist of the advisory is as under:

- Manufacturers/packers/importers/ their representatives to voluntarily affix additional revised price sticker, on unsold packages manufactured before 22nd September, 2025, and are lying with them, provided the original price declaration on the package is not obstructed.
- The requirement to issue advertisement about revised prices in two newspapers has been waived off.
- Manufacturers/ packers/ importers are now required to send circulars to wholesale dealers/ retailers, etc about revised prices with copy thereof endorsed to Director, Legal Metrology of the Central Government and Controller, Legal Metrology of all States/ UTs and to ensure price compliance at the retailer level.
- Manufacturers/packers/importers shall take immediate measures to sensitise dealers/ retailers/ consumers about revision in GST rates through all possible channels of communication including electronic, print and social media.

The link to the Advisory is below:

[GST revision Permission by Central Govt under Rules 33 of the Legal Metrology Packaged Commodities Rules 2011 to relax provisions contained in Rule 183 whatsn ews.pdf](#)

Frequently Asked Questions- 3

Q1. In which notification will I find the CGST rates changes for goods? Is a new Notification being issued?

You will find the changes in CGST rates on goods in Notification No. 9/2025- Central Tax (Rate) dated 17.9.2025. This Notification No. 9/2025- Central Tax (Rate) dated 17.9.2025 has been issued in supersession of earlier Notification No.1/2017- Central Tax (Rate) dated 28th June 2017.

The same is available on <https://taxinformation.cbic.gov.in/view-pdf/1010436/ENG/Notifications>

Q2. In which notification will I find the list of exempted goods from CGST? Is a new Notification being issued?

You will find the list of goods exempted from CGST in Notification no. 10/2025-Central Tax (Rate) dated 17.9.2025. This Notification no. 10/2025-Central Tax (Rate) dated 17.9.2025 has been issued in supersession of earlier Notification No.2/2017- Central Tax (Rate) dated 28th June 2017.

The same is available on <https://taxinformation.cbic.gov.in/view-pdf/1010437/ENG/Notifications>

Q3. In which notification will I find the GST rate for handicrafts? Is a new Notification being issued?

You will find the GST rates for handicrafts in Notification no. 13/2025-Central Tax (Rate) dated 17.9.2025. This Notification no. 13/2025-Central Tax (Rate) dated 17.9.2025 has been issued to amend Notification No.21/2018- Central Tax (Rate) dated 26th July, 2018.

The same is available on <https://taxinformation.cbic.gov.in/view-pdf/1010440/ENG/Notifications>

Q4. Which notification prescribes the amended rates of compensation cess?

Notification no. 1/2017-Compensation Cess (Rate) dated 28.6.2017 has been amended vide Notification no. 2/2025-Compensation Cess (Rate) dated 17.9.2025 to notify the changes in compensation cess rates.

The same is available on <https://taxinformation.cbic.gov.in/view-pdf/1010449/ENG/Notifications>

Q5. Which is the notification relating to change in GST rate on goods imported for petroleum operations?

Please refer to notification no. 11/2025- Central Tax (Rate) dated 17.9.2025 in this regard.

The same is available on <https://taxinformation.cbic.gov.in/view-pdf/1010438/ENG/Notifications>

Q6. Has a new notification been issued for bricks under Special Composition Scheme?

There is no change in GST rate under the special composition scheme for bricks other than sand lime bricks. Notification no. 14/2025- Central Tax (Rate) dated 17.9.2025 has been issued in this regard.

The same is available on <https://taxinformation.cbic.gov.in/view-pdf/1010441/ENG/Notifications>

Frequently Asked Questions- 2

Q1. Is it required to recall and re-label MRP on medicines already in the supply chain before 22nd September,2025? How will the re-labelling be implemented?

Answer: The National Pharmaceutical Pricing Authority (NPPA) vide OM's dated 12.9.2025 and 13.9.2025 have clarified the following:

- All manufacturers/ marketing companies selling drugs/ formulations shall revise the Maximum Retail Price (MRP) of drugs/formulations (including medical devices).
- The manufacturers/ marketing companies shall issue revised price list or supplementary price list, in Form V/VI, to dealers and retailers for display to consumers, and to State Drug Controllers and the Government, reflecting the revised GST rates and revised MRP.
- Recalling, re-labelling, or re-stickering on the label of container or pack of stocks released in the market prior to 22nd September, 2025 is not mandatory, if manufacturer/ marketing companies are able to ensure price compliance at the retailer level.

The OM's are available in the website of the National Pharmaceutical Pricing Authority (NPPA) under Department of Pharmaceuticals:

<https://nppa.gov.in/uploads/tender/01da3cf0cd3d17c68c9a63fe23878260.pdf> and <https://nppa.gov.in/uploads/tender/12fbbb0cb337f1d2d70afb3fbc57f39.pdf>

Q2. Unmanned aircrafts (Drones) attracted 5%,18% and 28% GST rate. 56th GST Council had recommended 5% GST rate on drones. Whether this 5% GST rate will apply to all types of drones?

Answer: Earlier unmanned aircrafts for personal use attracted 28% GST, unmanned aircrafts with digital camera/video camera recorders attracted 18% GST rate and all other unmanned aircrafts apart from aforementioned categories attracted 5% GST.

The GST council in its 56th meeting held on 03.09.2025 has recommended uniform GST rate of 5% on all the drones.

Q3. What is the current GST rate on bricks?

Answer: A Special Composition Scheme on supply of the bricks (other than sand lime bricks) was implemented w.e.f 1st April,2022 based on the Report of the Group of Ministers on Capacity Based Taxation and Special Composition Scheme which was accepted by GST Council in its 45th meeting held on 17th Sep 2021. Under the scheme, bricks attract GST of 6% without ITC and 12% with ITC with threshold limit for bricks at Rs. 20 lakhs instead of Rs.40 lakhs as is applicable to goods. The GST council in its 56th meeting held on 3rd September, 2025 did not recommend any change on the special composition scheme rates except on sand lime bricks on

which GST rate has been recommended to be reduced from 12% to 5%. Hence, all kinds of bricks except sand lime bricks continue to attract GST of 6% without ITC and 12% with ITC with a threshold limit of Rs. 20 lakhs.

Q4. What are the insurance services covered within the ambit of the exemption granted to individual life and health insurance?

Answer: Services of individual health and life insurance business provided by insurers to the insured, where the insured is not a group, are included within the ambit of the exemption. When these services are provided to an individual, or to an individual with his/her family, the same will be exempted.

Q5. In addition to exempting services of individual health and life insurance supplied by insurers, will any input services of insurers be also exempted?

Answer: At present, insurers are availing ITC on many inputs and input services such as commissions, brokerage and reinsurance, etc. Out of these input services, reinsurance services will be exempted. Input Tax Credit of other inputs or input services is to be reversed because the output services will be exempted.

Q6. Do hotels which supply units of accommodation having value less than or equal to Rs 7500/- per unit day have the option of supplying such units at 18% with ITC?

Answer: Suppliers of hotel accommodation service where the value of a unit of accommodation is less than or equal to Rs 7500/- per unit per day, shall have to charge GST at 5% without ITC on such units. It is a mandatory rate prescribed for such services, and the option to pay GST at the rate of 18% with ITC is not available for such units.

Q7. Will hotels supplying units of accommodation having value less than or equal to Rs 7500/- per unit per day be able to avail ITC in relation to such units?

Answer: The hotels supplying units of accommodation which have value less than or equal to Rs 7500/- per unit per day, shall not be able to avail ITC on such units, as the GST rate prescribed for such supplies is 5% without ITC.

Q8. Is the 5% without ITC rate on beauty and physical well-being services mandatory? Can service providers charge 18% with ITC?

Answer: The 5% without ITC rate on beauty and physical well-being services is mandatory. Service providers do not have the option to charge 18% with ITC on these services.

Q9. How should a service provider deal with input tax credit (ITC) in cases where GST is payable at a rate of 5% without ITC?

Answer: In such cases,

- (a) Credit of input tax charged on goods or services used exclusively in supplying such services shall not be taken by the service provider; and
- (b) Credit of input tax charged on goods or services used partly for supplying such services and partly for supplying other taxable supplies shall be reversed by the service provider as if the supply leviable to 5% without ITC is an exempt supply. Consequently, proportionate ITC shall be required to be reversed by the service provider as per Section 17(2) of the CGST Act, 2017 and the rules made thereunder.

Q10. What is the GST rate applicable on job work services in relation to bus body building?

Answer: Job work services in relation to bus body building are taxable at a GST rate of 18% with Input Tax Credit (ITC). Earlier, these services were covered under a specific entry [erstwhile Entry (ic) of Heading 9988] and attracted 18% with ITC. In the recent rate rationalization exercise, all residual job work services or other manufacturing services have been aligned to 18% with ITC, thereby subsuming the specific entry for bus body building.

Q11. What is the GST rate applicable on job work services in relation to bricks?

Answer: Job-work services in relation to those bricks that will attract GST @5% (E.g. sand lime bricks) will be taxable at the rate of 5% with ITC.

Q12. What is the GST rate applicable on multimodal transport of goods?

Answer: Multimodal transport of goods (where at least two different modes are used by a multimodal transporter) will be taxable as follows:

- (a) 5% with restricted input tax credit — i.e. ITC allowed only on input services of transportation of goods limited to 5% of the value; when no leg of transport of goods is by air.
- (b) 18%, with full input tax credit; when at least one leg of the transport is by air.

Q13. Can ITC be taken on multimodal transport services, where no leg of transport is by air and the applicable rate is 5%?

Answer. Input services of goods transportation limited to 5% of the value will be allowed even if supplier of such services has charged a higher rate of tax. ITC will not be allowed for other inputs or input services.

Example: 'A' engages 'B' (multimodal transporter) for transport of goods from New Delhi to Gaya for Rs. 1200, without involving any transportation through air. B' hires GTA 'C' for Rs. 600 who charges tax @18% and Container Transport Operator 'D' for Rs. 400 who charges tax @5%.

GST Rate applicable for the service provided by 'B': 5%

ITC available to 'B':

- (a) GTA input: Rs. 30 (5% of Rs. 600), not Rs. 108 (18% of 600)
- (b) CTO input: Rs. 20 (5% of Rs. 400).

Q14. What is the tax treatment if multimodal transportation involves transport of goods through air also?

Answer: If at least one leg of transport is through air, the applicable GST rate will be 18%. In such cases entire ITC of inputs or input services is allowed.

Example: 'A' engages 'B' (multimodal transporter) for transport of goods from New Delhi to Gaya for Rs. 1200, which involves transportation through air. B' engages a service provider 'C' providing services of transport of goods through air for Rs 800 and a GTA 'D' for Rs. 200 who charges tax @18%.

GST rate applicable on the service provided by B: 18%

ITC available to 'B':

- (a) GTA input: Rs 36 (18% of Rs. 200)
- (b) Input on the services of goods transportation by air: Rs 144 (18% of Rs. 800).

Q15. Who is liable to pay GST for Local Delivery Services provided through ECO?

Answer: Services by way of local delivery provided through an e-commerce operator (ECO) where the person supplying such services is not liable to register under Section 22(1) will be covered under Section 9(5) of the CGST Act. In such cases, the liability to pay GST will be on the ECO.

Q16. At what rate are local delivery services taxable?

Answer: The services of local delivery are taxable at 18%.

If such services of local delivery are supplied directly by a registered person: GST @ 18% payable by that person.

If such services of local delivery are supplied through ECO by a person who is not liable to be registered: GST @ 18% payable by the ECO under section 9(5).

If such services of local delivery are supplied through ECO by a registered person: GST@18% is payable by the supplier of the local delivery service, i.e., the registered person supplying through ECO.

Q17. Whether an ECO providing the local delivery services are covered within the scope of GTA? What will be the effect if the local delivery services are provided through an ECO?

Answer: “Goods Transport Agency” (GTA) will not include:

- (a) *“electronic commerce operator by whom the services of local delivery are provided,”*
and
- (b) *“electronic commerce operator through whom the services of local delivery are provided.”*

Q18. What is tax treatment for leasing or renting services without operator?

Answer: Majority of leasing or rental services without operator are taxed at the same rate of tax as applicable on supply of like goods. No change is proposed in this regard. The tax rate on such services will continue to be equal to the tax rate applicable on supply of like goods. For example, if cars or machines are taxed at 18% then the rate of 18% will be applicable for leasing or renting (without operator) of such cars or machines. Similarly, if supply of any motor vehicle is taxed at 40% or 5% then the leasing or renting services (without operator) will also be taxed at 40% or 5% respectively.

Q19. What is the applicable tax rate on leasing/renting a car with operator?

Answer: Supplier of services of leasing/renting a car with operator (for example, driver) will now have the option of charging 5% with ITC of input services in same line of business or 18% with full ITC.

FREQUENTLY ASKED QUESTIONS

1. When will the changes in GST rates come into force?

As per recommendations of the GST Council in its 56th meeting, the changes in GST rates on services and goods other than pan masala, cigarettes, chewing tobacco products like zarda, unmanufactured tobacco and beedi will be effective from 22nd September, 2025. For the specified goods namely, pan masala, cigarettes, chewing tobacco products like zarda, unmanufactured tobacco and beedi, the existing rates of GST and compensation cess will continue to apply and the new rates will be implemented at a later date to be notified, based on discharging of entire loan and interest liabilities on account of compensation cess.

2. Is there any change in threshold of the registration required for goods under CGST Act, 2017?

No, there is no change in threshold of the registration required for goods under CGST Act, 2017.

3. Which notification provides for the revised rates?

The changes in GST rates will be notified in the rate notification. The notification would be placed on CBIC website.

4. What happens to the applicable rate of tax, if I had supplied goods/services or both before the changes in GST rates come into force but the invoices were issued later?

As per Section 14 (a)(i) of CGST Act, 2017, in case the goods or services or both have been supplied before the change in rate of tax, and the invoice for the same has been issued after the change in rate of tax, then the time of supply i.e. date of liability to pay tax on such supply will be as follows:

- i. If the payment is received after the change in rate of tax, then time of supply shall be the date of receipt of payment or the date of issue of invoice, whichever is earlier.
- ii. If the payment has been received before the change in rate of tax, the time of supply shall be the date of receipt of payment.

5. What would be the GST rate applicable if I have received advances for supply of goods/services or both but supply has not been completed or invoice is not issued?

The GST rate will be determined as per the time of supply provisions. (*Refer Section 14 of the CGST Act, 2017*).

6. What will happen to the ITC for purchases made before changes in GST rates came into effect? Will I get ITC at reduced rate now?

Section 16(1) of CGST Act entitles a registered person to take credit of the input tax charged on his inward supplies, which he uses or intends to use in the course or furtherance of his

business, subject to conditions and restrictions which may be prescribed and in the manner provided under section 49 of the CGST Act 2017, which gets credited to his e- credit ledger.

Accordingly, if a registered person receives an inward supply and tax has been duly charged on it, at a rate which is in consonance with the rate prevailing at the time of such supply, the said registered person is entitled to the credit of such tax paid, subject to the other conditions/ restrictions and manner specified in section 49 of the CGST Act 2017.

7. What will be the impact on the IGST rate on import of goods?

The IGST on imported goods will be the GST rates as notified in the rate notification except where IGST rate has been exempted separately.

8. The GST rate has been reduced on my outward supply of goods/services made on or after 22nd September, 2025 but I already have ITC of GST in ledger that accrued on account of higher rate. Can I continue to use such credit?

The input tax credit once duly availed in e-credit ledger can be used for discharge of any output tax liability in terms of provisions of section 49(4) of CGST Act and rules made thereunder.

9. My outward supply is exempt under new rate schedule. But I already have ITC of GST paid in my ledger. Will I need to reverse ITC?

The ITC can be utilized to discharge outward liability for supplies of goods/services or both made till 21st September, 2025. However, for supplies made on or after i.e 22nd September, 2025 when the rate change is effected, ITC will have to be reversed as per provisions of CGST Act, 2017.

10. Will I be allowed to take refund of accumulated credit arising out of inverted duty structure for supplies effected upto the date of effect of revised rate as notified?

The said issue has been clarified vide circular No. 135/05/2020-GST dated 31.03.2020 (as amended), which states that refund of accumulated ITC in terms of clause (ii) of first proviso to section 54(3) of the CGST Act, is available where the credit has accumulated on account of rate of tax on inputs being higher than the rate of tax on output supplies. However, the input and output being the same in such cases, though attracting different tax rates at different points in time, do not get covered under the provisions of clause (ii) of the first proviso to sub-section (3) of section 54 of the CGST Act.

11. If I already have stock on the date when rate changes come into effect, should I apply the revised rate?

GST is levied on supply. Therefore, on goods supplied on or after the revised GST rates are notified, the new GST rates will be applicable on the outward supplies of goods/services or both.

12. Will the e-way bills have to be cancelled and generated afresh on goods in transit when the new rates come into effect?

As per rule 138 of CGST Rules, 2017 the e-way bill is to be generated before the start of supply/transport of goods. There is no mandatory requirement for cancellation and fresh generation of e-way bills for goods in transit when the new rates come into effect. E-way bills currently in transit will continue to remain valid as per their original validity period.

13. UHT (Ultra High Temperature) milk has been exempted. Does exemption to UHT milk also cover plant-based milk?

All dairy milk, other than UHT milk, were already exempt from GST. Hence UHT milk has been exempted to provide same tax treatment to similar goods. Plant based milk drinks except soya milk drinks attracted 18% GST while soya milk drink attracted 12% GST. The GST rate on plant-based milk drinks and soya milk drinks have now been reduced to 5%.

14. What is the reason for 40% rate on ‘other non-alcoholic beverages’?

The principle behind the recent rate rationalisation exercise is to keep similar goods at the same rate to avoid issues of misclassification and disputes. This has also been applied to ‘other non-alcoholic beverages’.

15. What is the GST rate on food preparations not elsewhere specified in any of the schedules?

Food preparations not elsewhere specified will attract a GST rate of 5%.

16. What is the reason for revising GST rate only on specified varieties of Indian bread?

Bread was already exempt while pizza bread, roti, porotta, paratha etc attracted different rates. All Indian breads, by whatever name called have been exempted even though only few goods have been mentioned by way of illustrative example.

17. Why has the rate of carbonated beverages of fruit drink or carbonated beverages with fruit juice been increased?

These goods attracted compensation cess in addition to GST. Since it has been decided to end compensation cess levy, the tax has been increased to maintain the pre rate rationalization level of tax.

18. Why is there a different tax treatment between paneer and other cheese?

Prior to rate rationalisation, paneer sold in other than pre-packaged and labelled form already attracted nil rate. Therefore the changes have been made only in respect of paneer supplied in pre-packaged and labelled form. Paneer is an Indian cottage cheese. This is mostly produced in small scale sector. The measure is intended to promote Indian cottage cheese.

19. What is the reason for differential tax treatment for natural honey and artificial honey?

This is intended to promote natural honey.

20. Has the GST on all agriculture machinery / equipment been reduced?

The GST rate on agriculture machinery/equipment such as, sprinklers, drip irrigation system, Agricultural, horticultural or forestry machinery for soil preparation or cultivation; lawn or sports-ground rollers, harvesting or threshing machinery, including straw or fodder balers; grass or hay mowers, other agricultural, horticultural, forestry, poultry-keeping or bee-keeping machinery, composting machines etc, which earlier attracted 12% GST, has now been reduced to 5%.

21. Why has agriculture machinery not been fully exempted ?

The objective of the rate rationalisation is to maintain balance between users and producers. While providing relief for the farmers, it is important that the domestic manufacturing does not get adversely impacted. If agriculture machinery is fully exempted, the manufacturers/dealers of these goods would not be able to claim input tax credit on the GST paid on raw materials and will have to reverse the ITC paid on the inputs. This would increase their effective tax incidence and cost of production. This may in turn be passed on to farmers in the form of higher prices which in turn would make the measure counterproductive.

22. What is the GST rate on medicines?

All drugs/ medicines have been prescribed a concessional rate of GST of 5%, except those specified at nil rate.

23. Why have all medicines not been exempted from GST in general?

If drugs/ medicines are fully exempted, the manufacturers/dealers would not be able to claim input tax credit on GST paid on raw materials and will have to reverse the ITC paid on the inputs. This would increase their effective tax incidence and cost of production. This may in turn be passed on to consumers/ patients in the form of higher prices which in turn would make the measure counterproductive.

24. Does the 5% GST rate apply on all medical devices?

The rate of 5% applies on all medical devices, instruments, apparatus used in medical, surgical, dental and veterinary uses other than that are exempted specifically.

25. Why has the GST rate been reduced on medical devices? Will this not lead to inverted duty structure?

The measure is intended to lower the cost of healthcare and thereby benefit patients, particularly the poor. This measure does not create any new inverted duty structure as the existing structure already had inverted duty structure although this measure may deepen the inversion. However, under GST, refund of accumulated input tax credit arising on account of inverted duty structure is available to manufacturers. GST Council has also recommended process reforms to enable expedited refunds.

26. What is the revised GST rate on small petrol, LPG, CNG, or diesel cars? What is covered under small cars?

The GST rate on all small cars has been reduced from 28% to 18%. For the purposes of GST, small cars means Petrol, LPG, or CNG cars with engine capacity up to 1200 cc and length up to 4000 mm and Diesel cars with engine capacity up to 1500 cc and length up to 4000 mm.

27. What is the new GST rate on vehicles exceeding 1500 cc or length exceeding 4000mm? What is the GST rate on utility vehicles?

The GST rate on all mid-size and large cars i.e vehicles exceeding 1500 cc or length exceeding 4000mm is 40%. Further, motor vehicles in the category of Utility Vehicles, by whatever name called including Sports Utility Vehicles (SUV), Multi Utility Vehicles (MUV), Multi-purpose Vehicles (MPV) or Cross-Over Utility Vehicles (XUV), with an engine capacity exceeding 1500 cc, length exceeding 4000 mm, and ground clearance of 170 mm and above, will also attract a GST rate of 40% without any cess.

28. What is the GST rate on 3-wheelers?

The GST rate on three-wheelers classified under HSN 8703 is 18%. It has been reduced from 28%.

29. What is the GST rate on buses and other vehicles meant to carry 10 or more persons, including the driver, such as buses?

All motor vehicles designed to transport ten or more persons, including the driver, and classified under HSN 8702, will attract a GST rate of 18%. It has been reduced from 28%.

30. What is the GST rate on vehicles supplied as ambulances?

Motor vehicles cleared as ambulances, and duly fitted with all necessary fitments, furniture, and accessories necessary for an ambulance at the time of clearance from the factory will attract a GST rate of 18%. It has been reduced from 28%.

31. What is the GST rate on goods transport vehicles such as lorries and trucks?

Motor vehicles designed for the transport of goods, such as lorries and trucks, classified under HSN 8704 will attract a GST rate of 18%. It has been reduced from 28%.

32. What is the GST rate on trailers and semi-trailers of tractors?

Tractors, other than road tractors for semi-trailers of engine capacity more than 1800 cc, attract a GST rate of 5%. However, road tractors for semi-trailers, with engine capacity more than 1800 cc attract a GST rate of 18%. It has been reduced from 28%.

33. What is the GST rate on motorcycles?

Motorcycles of engine capacity upto 350 cc attract a GST rate of 18% while Motorcycles of engine capacity exceeding 350 cc attract a GST rate of 40%.

34. GST rate is 18% for motor cycles upto 350cc? Does this include 350cc motor cycles?

The 40% rate is applicable only to motorcycles exceeding 350cc. Therefore the 18% rate also applies to motor cycles of 350cc or lesser than 350cc.

35. Currently mid-size and big cars attract 28% GST and compensation cess ranging from 17-22% with the overall tax incidence ranging from 45-50%. What will be the new rate?

The new GST rate on mid-size and big cars will be 40% with no compensation cess.

36. Has GST rate been reduced on bicycles and parts?

The GST rate has been reduced to 5% on bicycles and its parts from 12%.

37. Why has small agricultural tractors not been fully exempted from GST?

The objective is to provide relief to the farmers while not disincentivising domestic producers. Fully exempting small tractors would be counterproductive. When the rate of tax on any goods is nil, the suppliers cannot claim Input Tax Credit (ITC) on the inputs used in manufacture of the goods and will have to reverse the same. This means that the producers have to absorb this cost which will eventually be passed to the buyers.

38. Why is 40% rate referred to as a 'special rate'? What is the basis for subjecting goods to special rate?

The special rate is applicable only on few select goods, predominantly on sin goods and few luxury goods and therefore is a special rate. Most of these goods attracted Compensation Cess in addition to GST. Since it has been decided to end the Compensation Cess levy, the Compensation Cess rate is being merged with GST so as to maintain tax incidence on most goods. On other goods and services, the special rate has been applied as these were already attracting the highest GST rate of 28%.

39. What is the reason for differential tax rates on wood pulp?

Wood pulp is used for making paper and textiles. The paper chain and the textile chain operate separately. For textiles, the tax treatment is to maintain parity with other textile goods.

40. Why has GST not been removed on raw cotton?

Currently, cotton attracts GST on reverse charge basis. This means that agriculturists do not have to pay GST when they supply raw cotton. The reason for taxing cotton in GST is to avoid breakage in input credit chain and the GST paid on cotton is available as input tax credit for the textile industry. This will ultimately benefit the consumers.

41. For the textile sector, why is the rate not reduced on chemical dyes, plastics, metals, rubber used in metallised yarn, zippers, elastics, rubberised yarn, elastic covered yarn, embellishments etc?

The aim of the rate rationalisation exercise is to correct inversion in the manmade value chain. This is in line with the fibre neutral policy. However, the listed items are multi use goods.

Reducing GST on these goods will require an end use-based mechanism which is against the current policy of moving away from end use-based exemptions.

42. Will technical textiles such as geotextiles and agro-textiles face deeper inversion as these primarily use plastic components such as polyethylene and polypropylene?

Technical textiles such as geotextiles and agro- textiles are classified as textiles and not plastics by virtue of the Harmonised System of Nomenclature of World Customs Organisation adopted by India. While inversion may deepen, under GST, refund of accumulated credit on account of inverted duty is available. Therefore, accumulated input tax credit gets neutralised by way of refund. The process reform will ensure expedited sanction of the refunds.

43. Why is refund of inverted duty structure on imitation zari made out of metallised plastic film restricted while there is no other restriction on refund on other textile products made from plastic or rubber?

The decision to restrict ITC on the plastic/ polyester film in imitation zari was taken in the 52nd Council meeting. The focus of this GST rate rationalisation exercise has been to streamline GST rates.

44. What is the new GST rate on toilet soap bar? Why has a distinction been kept between liquid soap and soap in bars?

The new GST rate on toilet soap bar is 5%. This is intended to lower the monthly expenditure for the lower middle class and the poorer sections of society.

45. What is the reason for reducing GST on face powder and shampoos? Will this not benefit MNCs and luxury brands?

These goods are daily use items for almost all segments of population. Although expensive face powder and shampoos sold by MNCs or luxury brands will also benefit, the objective of the rate rationalisation exercise is to further simplify the tax structure. Administering a tax based on brand or value of cosmetics will create complexity in tax structure besides posing challenges for administration.

46. Why GST been reduced only on select items such as face powder and shaving cream?

The GST rate has been reduced to 5% only on certain goods that are daily use items for most segments of population.

47. Why has GST not been reduced on mouthwash which is also commonly consumed across households like dental floss?

GST Council recommended to reduce the GST rate to 5% on tooth paste, tooth brush and dental floss which are in the nature of basic dental hygiene goods.

48. Why has GST rate on coal been increased? Will this not impact electricity cost?

Coal attracted, prior to rate rationalization, 5% GST+ Compensation Cess of Rs 400/ton. The Council has recommended to end Compensation Cess and hence the rate has been merged with GST. There is no additional burden.

49. Has the GST rate on tendu leaves been reduced? Why has the rate been reduced?

GST rate on tendu leaves has been reduced to 5% as tobacco leaves are already at 5%. Tendu leaves are also a minor forest produce.

50. What is the GST rate on renewable energy equipment/devices?

The GST rate on renewable energy equipment/devices that were at 12% has been reduced to 5%.

51. Why has the GST rate been reduced on renewable energy equipment /devices? Will this not lead to inverted duty structure?

These goods already faced inverted duty structure. While reducing the GST rate to 5% will deepen inversion, mechanism for refund arising out of inverted duty structure is available. In addition, process reforms will ensure expedited refunds. The objective is to promote renewable energy goods.

52. Why has the GST rate on marble and travertine blocks and granite blocks been reduced?

Earlier, marble and travertine blocks and granite blocks attracted GST rate of 12%. These are in the nature of intermediate goods and GST rate on these goods has been reduced to 5%.
