Advisory

Date: 20th November, 2026

Subject: Unified Application Dashboard for Rubber Board Import NOC under SWIFT 2.0.

SWIFT 2.0 Unified Dashboard enables single-window access for trade users to manage NOCs, licenses, inspections, and documents across Participating Government Agencies (PGAs) like Rubber Board, simplifying trade compliance.

2. CBIC has launched Unified Application Dashboard for Rubber Board NOC under SWIFT 2.0 for Import on all ports for all interdicted Rubber Board Bill of Entries. Manual filling of application for Rubber Board Import NOC will not be required with effect from 20.11.2026.

3. Post filing of Integrated Bill of Entry Declaration for import of Rubber Board, trade users can get their Rubber Board Import NOC issued through the Unified Application Dashboard under the SWIFT portal of ICEGATE. The Dashboard has the following features:

i. Filing of additional mandatory fields/documents for Rubber Board: Additional mandatory data/documents for Rubber Board NOC that have not been filed in the Integrated Bill of Entry Declaration.

ii. NOC Status tracking.

iii. SMS/email notifications to trade user for status and action to be taken.

iv. Reply to the queries raised by Rubber Board officers.

v. Notification and confirmation of Visual Inspection Date for Rubber Board NOC.

vi. View/Download of NOC document.

4. The feature of Compliance repository has also been introduced in the SWIFT 2.0 module so that the registered ICEGATE EXIM users can view the NOCs and the LPCOs issued by the various agencies. The agencies are being onboarded in this digital repository in a phased manner.

5. Trade is advised to refer to the Rubber Board User Manual uploaded under Rubber Board User Manual | icegate for issuance of Import NOC issued by Rubber Board under Unified Application Dashboard.
